

SUMMARY

I am a computer science graduate and a software engineering enthusiast with a passion for providing technological solutions to society.

SKILLS

Front-End: JavaScript, React, Redux, HTML5, CSS3, SASS, Bootstrap and Ruby.

Back-End: Ruby, Rails, Elixir, Phoenix, PostgreSQL, MySQL

Tools & Methods: Git, GitHub, Heroku, Netlify, Mobile/Responsive Development, RSpec, TDD, Chrome Dev Tools

Professional: Remote Pair-Programming, Teamwork, Mentoring

RELEVANT EXPERIENCE

Mentor

September 2020 - Present

Microverse, Remote

- Mentored students on a 1:1 basis to provide both technical and professional assistance as they completed individual and group projects in HTML, CSS, Bootstrap and SASS.
- Provided feedback and help to students and assisted them to add features in their projects.

Intern

July 2019 - October 2019

Minecofin, Rwanda

- Mentored fellow interns on how to build web applications using Spring MVC, Spring Boot and ZK frameworks.
- Completed a desktop ticketing application in Java for a local tourism company that helped them improve the security and consistency of their data.

EDUCATION

Microverse, Full Stack Development Program

August 2020 - Present

- Spent 1300+ hours mastering algorithms, data structures, and full-stack development while simultaneously developing projects in Ruby, Rails, Javascript, React, and Redux.
- Developed skills in remote pair-programming, using Github, industry-standard git flows, and daily standups to communicate and collaborate with international remote developers.

Adventist University of Central Africa

2016 - 2019

- Spent 4 years learning about IT and software engineering learning programming languages like JAVA and C# while developing interpersonal and intrapersonal skills.
- Assisted fellow students in making different projects either school related or personal projects.
